

Tyler Le

Software Engineer

Relevant Experience

Fullstack Developer · Pathways Program

September 24' - February 25'

- Worked with Angular, C# (ASP.NET WEB API), SQL, REST API's
- Contributed to VolunteerOne, by letting a user see their volunteering summary, from back to front

IT Applications Developer · State of Nebraska

April 23' - September 24'

- Maintained Workflows, making fixes to previously existing solutions
- Created Workflows for different state agencies
- Utilized SSMS for data testing (Oracle DBMS)

Education

SCC · IT Applications Development

23' - 24'

- Took foundational programming courses at Southeast Community College. I had planned to continue at UNL, but the opportunity to join the Pathways Program arose

Lincoln Northeast High School · AP Computer Science

20' - 21'

- Discovered my passion for software in an AP Computer Science class, where I learned Python and explored the fundamentals of software and how the internet works
